## 1. How To Use This Guidebook

---

1. The Guidebook is intended to help you locate low cost aftermarket ROPS for older tractors.
2. Generally, “two post” or “roll bars” will be the lowest cost.
3. **A general recommendation is to always contact your local tractor dealership first. This will normally get you a ROPS that best fits your tractor. If your dealer cannot find you a ROPS, this Guidebook may identify other options.**
4. Seat belts must always be used with a ROPS.
5. ROPS must be properly installed based on supplier information.
6. Two post ROPS prices normally ranged from \$500.00 to \$1,500.00. Four post ROPS prices normally ranged from \$1,500.00 to \$3,000.00.
7. Manufacturers state that their ROPS comply with applicable CSA, OSHA, SAE, or ASABE standards when properly installed with seat belts.
8. Prices quoted in this book generally do not include freight, tax, or installation.

## 2. Acknowledgements

---

1. PAMI wishes to thank the National Farm Medicine Centre, Massfield, WI for allowing us to base this Guidebook for Canada on their USA publication.
2. PAMI thanks AAFC for funding this project.

## 3. Warning

---

While best effort was used to obtain the following information, changes over time can make some data in this Guidebook incorrect. Always verify and rely on information provided to you by the supplier of the ROPS. Neither PAMI nor our partner agencies accept liability for the content or accuracy of this Guidebook.
